

NAME

ciaaw - Command line for ciaaw

SYNOPSIS

ciaaw [OPTION...] [ELEMENT...]

DESCRIPTION

ciaaw is a command line interface which provides the atomic weights, the isotopic compositions and the nuclides atomic weights. If no element is provided the full periodic table is displayed.

OPTIONS

--saw, -s

Get the standard atomic weight.

--ice, -i Get the isotopic composition.

--naw, -n

Get the nuclide atomic weight.

--mu, -m

Get the molar masses in g/mol by multiplying the atomic weights by the molar mass constant M_u .

--colnames, -c

Show the headers in the outputs.

--usage, -u

Show usage text and exit.

--help, -h

Show help text and exit.

--verbose, -V

Display additional information when available.

--version, -v

Show version information and exit.

EXAMPLE

Minimal example

```
ciaaw
```

```
ciaaw H C B O Zr Nb --saw --ice --naw --colnames
```

```
ciaaw H C B O Zr Nb -sinc
```
